This recipe gives dealer a 1-heart opener.

Responder has game-going points with an unbalanced hand with a void or singleton.

Note the user of randomizers to deliver at least one void or singleton in one suit other than hearts.

Only one of the expressions enclosed in curly braces will be used to create the deal. Within that selected expression, only one of the expressions enclosed in square brackets will be selected. So it is a series of random selections each time you generate from this recipe.
